

Business Apps:

Power Apps: Turn bright ideas into brilliant apps

Work Smarter and achieve your goals faster: Drive innovation across your organisation by empowering your teams to digitalise their own processes and application needs with the help of Power Apps.

Organisations will increase their agility by rapidly building low-code apps that modernise processes and solve tough challenges, supporting a pragmatic digitalisation and automation across the company.

Give everyone the power to build the apps they need with advanced functionality previously only available to professional developers—including pre-built AI components –with having full control through clear governance and security.

PowerApps Bundle Offer: Our packaged offer consists of an App in a Day for up to 9 people, a centre of excellence workshop with IT, an Ideation & Design Workshop to empower users to identify and design solutions, a Hackathon to build your first apps, a POC for 3 days for 3 apps, as well as licenses for the first 3 months to start using the developed applications immediately.

App Development Backlog

65% of organisations report an app development backlog

Paper Processes

37% of organisations are still using paper to manage critical business processes
